

AppScale - Feature #374

Optimize Dashboard's stats collection and present the data similar to 'appscale status'

01/11/2017 11:24 PM - Tanvi Marballi

Status:	Closed	% Done:	100%
Priority:	Normal		
Assignee:	Eden Akins		
Target version:	3.2.0		
Estimated Time:	5.00	Deployment type:	AppScale - self deployed
Description			

History

#1 - 02/21/2017 01:42 PM - Tanvi Marballi

- Subject changed from Dashboard investigation to Optimize Dashboard's stats collection and present the data similar to 'appscale status'
- Estimated Time changed from 2.00 to 5.00

AC pushes a lot of instance and other information to the Dashboard, which poses a problem with larger deployments and makes it slow & unresponsive. Figure out a better way for the Dashboard to collect that data. 'appscale status' presentation is being changed as well, so both the presentations similar.

#2 - 03/15/2017 06:08 PM - Eden Akins

- Assignee changed from Tanvi Marballi to Eden Akins
- % Done changed from 0 to 90

#3 - 03/22/2017 07:34 PM - Eden Akins

- Status changed from New to Closed
- % Done changed from 90 to 100
